ACADEMIC MANAGEMENT SYSTEM

Mayuresh Soft-Tech Private Limited:

Mayuresh Soft-Tech Private Ltd (MSOFT) provides next generation Cloud Products and IT Outsourcing Services for our International and Domestic clients. MSOFT is having the strong presence in the domestic and global market since 2008. In 2012,we stepped ahead in the business area of IT Outsourcing services to our international clients. In 2014, we have entered into the Software Cloud product development where we have targeted the Healthcare, Academic and Hospitality domains. Our Products are successfully running across various clients in India.

Academic Management System:

"MSOFT - Academic Management System"(MSOFT-AMS) which we have recently launched in market**.** This is user driven software that runs on a web browser. MSOFT-AMS is academic system which helps in monitoring, analysing and tracking students and staffs attendance along with classroom management for Universities, Colleges & Business Schools. We provide the entire software system along with configured hardware. The MSOFT-AMS allows engagement with your students and tracks their attendance while also monitoring their involvement in campus activities. MSOFT-AMS allows students to use their student card to take ownership of their attendance at lectures, tutorials and field trips. These systems can be fully integrated with other access control and security systems and can be further customized to suit the needs of a specific campus. The system produces detailed and graphic reports to inform all relevant parties of a student's

progress. MSOFT-AMS fulfils all legislative reporting requirements and reduces the manual efforts of attendance monitoring by staff. The system fully automates all elements of academic monitoring with regards to the collection of attendance data, integration into student registration and timetable systems, threshold warning notifications and internal/external reporting. MSOFT-AMS enables educational organisations to meet their academic, legal and contractual requirements with regards to attendance monitoring.

AMS Modules:
